

## Anatomy seminar at University of Dresden by DGZI and Schütz Dental October 7-9, 2010

After the big success of the first German Anatomy Seminar, DGZI and Schütz Dental now have the pleasure to offer such a seminar for English-speaking participants from abroad. During the first International Anatomy Seminar you will have the chance to train your skills in implantology by working on an embalmed human head. With the high-end specialists from DGZI you will have the right people by your side. Receive answers to all of your questions and obtain many new skills.

Some of the varied topics will be suturing, bone splitting, intra-oral and extra-oral block bone grafts, sinus lift, and many more!!!

### Schedule

Oct. 6	
Evening:	arrival in Dresden
Oct. 7-8	DGZI program (at University of Dresden) Each participant has the chance to apply all modern surgical techniques in Dental Implantology, such as suturing, bone splitting, intra-oral and extra-oral block bone grafts, sinus lifting, and many more, on embalmed human heads.
Oct. 9	
09.00	presentation IMPLA 3D (D. Omo-Ayere)
10.00	demonstration IMPLA 3D Software (H.-J. Lichtenberg)
12.00	break
13.00	basic demonstration on Theta table - How to produce surgical templates.
15.00	presentation IMPLA - What's new? (H.-J. Lichtenberg)
16.00	end of the course
20.00	dinner
Oct. 10	departure from Dresden
